As promised, here are the links referenced in our PowerPoint class:

Source for images on the web:
        Images.google.com

Sound editing program
        Audacity (free) (https://www.audacityteam.org/download/)
        (Can also capture sound played through your computer, but that a bit tricky to set up)

Express Rip CD Ripper to convert CD audio tracks to MP3 files
        Free at https://www.nch.com.au/rip

Great source for video and also music/sounds:
        Youtube.com

Recommended YouTube download program, both videos and audio
        The newer "plus" version: 4Kdownload.com
                Free personal, $15 one year, $25 permanent
        Older version: 4K Video Downloader (scroll down toward bottom)
                Free version only
